YUICHIRO KAWAKAMI

Co-op Programmer

About Me

I am Yuichiro Kawakami, a proficient programmer specialized in C#, Python, Dart, C++, and C. My experience includes developing games in Unity, creating apps with Flutter and Dart, as well as designing websites. Moreover, I have worked with MySQL and Firebase databases. Fluent in both Japanese and English, I am currently studying Game Programming at ITD Canada. I am thrilled about the opportunity to potentially join your team!
